SUMMARY

Software Engineer with 3 years of experience developing production web, mobile, and backend applications using Python, Django, Django REST APIs, PostgreSQL, React.js, and Next.js. Experienced in backend development, REST API development, database-driven applications, API integration, authentication, debugging, testing, and performance optimization. Worked on fintech applications including multi-currency payment and accounting platforms, with experience collaborating in Agile software development environments.

TECHNICAL SKILLS

Languages: Python, JavaScript (ES6+), TypeScript, Java, SQL

Backend: Python, Django, Django REST Framework, REST APIs, API Development, Backend Services, API Integration

Frontend: React.js, Next.js, HTML5, CSS3, Tailwind CSS

Database: PostgreSQL, CockroachDB, MySQL, SQL Querying

Tools: Git, GitHub, Postman, Docker, Tauri

Testing: API Testing, Selenium, Manual Testing, Debugging

Concepts: Backend Development, Full-Stack Development, Microservices, Distributed Systems, Agile Development

EXPERIENCE

Software Engineer

Sep 2023 – Present

Gowdanar Technosoft Pvt Ltd, Bengaluru

- Developed production web, mobile, and desktop applications using Python, Django, React.js, Next.js, React Native, Tauri.
- Developed backend services using Python and Django for business workflows and application integrations.
- Developed and integrated REST APIs using Django for communication between frontend, mobile, and backend services.
- Worked with PostgreSQL, CockroachDB for transactional data management, application workflows, reporting requirements.
- Implemented API integration, authentication, debugging, issue resolution, performance optimization across apps workflows.

Web Development Intern

June-2023

1990 Minds, Bengaluru – Assisted in frontend development and responsive UI implementation using JavaScript, HTML, CSS.

PROJECTS

MVBooks – Accounting Management Application

- Developed backend modules and RESTful APIs using Python and Django for accounting and financial workflows.
- Designed and managed database operations using PostgreSQL and CockroachDB for transaction and reporting systems.
- Implemented authentication, API integration, debugging, and testing for reliable application workflows.
- Worked on accounting modules including ledger, invoicing, transactions, and financial workflows.

MVPay – Multi-Currency Payment Platform

- Integrated backend APIs with Next.js web applications and React Native mobile applications for payment workflows.
- Worked on multi-currency payment functionality and application workflows involving financial transactions.
- Developed and integrated reusable frontend components and supported debugging, testing, and performance optimization.

EDUCATION

Bachelor of Engineering [B.E] - Mechanical Engineering

2018 – 2022

Malnad College of Engineering

CERTIFICATIONS

- Java Full Stack Development – KodNest
