SUMMARY

Software Engineer with 2+ years of experience building scalable web, mobile, and desktop applications using React.js, Next.js, React Native, Django, JavaScript, TypeScript, and REST APIs. Experienced in developing reusable UI components, responsive user interfaces, backend integrations, and fintech applications using PostgreSQL and CockroachDB. Skilled in full stack development, performance optimization, debugging, Agile collaboration, and building maintainable production-ready software.

TECHNICAL SKILLS

Languages	JavaScript (ES6+), TypeScript, Python, Java, SQL
Frontend	React.js, Next.js, React Native, Cross-Platform Development, Tailwind CSS, HTML5, CSS3
State Management	Redux, Context API, React Hooks
Backend	Django, REST APIs, API Integration
Database	PostgreSQL, CockroachDB, MySQL
Concepts	Responsive UI, Reusable Components, Full Stack Development, Performance Optimization
Testing	API Testing, Selenium Automation, Manual Testing
Tools	Git, GitHub, Version Control, Postman, Agile Workflow, Tauri

EXPERIENCE

Software Engineer

Apr 2024 – Present

Gowdanar Technosoft Pvt Ltd, Bengaluru

- Developed scalable web, mobile, and desktop applications using React.js, Next.js, React Native, Django, and Tauri.
- Built responsive user interfaces and reusable React components for customer-facing fintech applications.
- Developed and integrated REST APIs for business workflows and backend services.
- Worked with PostgreSQL and CockroachDB for structured and distributed data management.
- Collaborated within Agile teams to deliver maintainable and production-ready software solutions.
- Participated in debugging, issue resolution, testing, and performance optimization across frontend and backend systems.

Web Development Intern

2023

1990 Minds, Bengaluru – Assisted in frontend development and responsive UI implementation using JavaScript, HTML CSS.

PROJECTS

MVBooks – Accounting Management Application

- Developed backend modules and RESTful APIs using Python and Django for accounting and financial workflows.
- Designed and managed database operations using PostgreSQL and CockroachDB for transaction and reporting systems.
- Implemented authentication, API integration, debugging, and testing for secure and reliable application workflows.
- Collaborated in Agile development cycles for deployment support, issue resolution, and feature enhancements.

MVPay – Multi-Currency Payment Platform

- Developed production-ready web applications using Next.js and mobile applications using React Native.
- Independently delivered the iOS application and integrated backend APIs for payment workflows.
- Collaborated on scalable frontend architecture, reusable React components, and responsive user experiences.
- Worked on debugging, testing, deployment support, and performance optimization.

EDUCATION

Bachelor of Engineering [B.E] - Mechanical Engineering

2018 – 2022

Malnad College of Engineering

CERTIFICATIONS

- Java Full Stack Development – KodNest
- Selenium WebDriver with Java
